Introducing StereX Multi-Surface BioBarrier

- Kills COVID-19 and 99.999% of bacteria & viruses on surfaces for a minimum period of 28 days
- Offers a minimum of 3 months' protection when applied to air conditioning systems
- Protects both hard & soft surfaces from contact-transmission bacteria & viruses
- Water-based & non-toxic formula
- Safe for food-handling areas

How does it work?

BioBarrier nano-shards attack and kill 99.999% of bacteria & viruses on the surface

BioBarrier nano-shards then create an impenetrable coating, killing bacteria & viruses that come into contact with it
